Fiscal Note Version – New

Description

House File 2121 adds the requirement that manure management plans that are submitted to the Department of Natural Resources include a calculation for the use of phosphorus for crop yields and field application.

Assumptions

1. The time to review manure management plans with a phosphorous calculation is estimated to be 2.5 years.
2. The Bill will require the Environmental Protection Division to add 4.00 FTE positions, costing \$200,000 in FY 2003 and FY 2004 for salaries and benefits. The cost to the Division in FY 2005 would be \$100,000 and 4.00 FTE positions for six months.

Fiscal Impact

The estimated General Fund fiscal impact of House File 2121 is an increase in expenditures of \$200,000 and 4.00 FTE positions, annually, for FY 2003 and 2004. The estimated increase in expenditures for FY 2005 would be \$100,000 and 4.00 FTE positions for six months.
